SATISFACTION	
<p>86,5 % of people who submitted an application with SRAM were admitted in one of the rounds.</p> <p>It is important to note that several applicants refused in the 1st round don't submit a new choice in the 2nd round, although it is possible. The same thing happens between the 2nd and 3rd round. Very often, these applicants are admitted in a CEGEP outside of SRAM (private or public) hence they don't pursue a complete approach with SRAM. Admission rate of applicants who pursued a complete approach is 95,6 %.</p> <p>We note that 56 694 applicants admitted were to the program and CEGEP of their first choice, regardless of the round of admission. It represents 91,3 % of admissions.</p>
